Profile

I am seeking a fullstack position in a dynamic organization where I can contribute to the growth of the company while furthering my professional and personal growth.

Education

- Bachelor of Electrical Engineering Mansoura University 2013 - 2018

Projects

Zimart [Code](#) [Demo](#)

- A fullstack e-commerce application that allows users to browse products, add them to cart, checkout, and manage their orders. As a full stack developer, I designed and implemented the entire application, including both the front-end and the back-end components.
- Technologies used: React, Redux toolkit, TypeScript, Node.js, Stripe, Passport.js, Express.js, GraphQL, GraphQL Subscription, Mongoose, Figma.

Listify [Code](#) [Demo](#)

- A to-do list application that allows users to create, edit, and delete to-do lists and tasks, and to mark tasks as completed. As a full-stack developer, I designed and implemented the entire application, including both the front-end and the back-end components.
- Technologies used: TypeScript, React, Node.js, Express.js, MongoDB, SASS.

Portfolio [Code](#) [Demo](#)

- Technologies used: TypeScript, React, SASS, Framer motion.

Certificates

Egfdw Professional Front End Web Development [Certificate](#)

Egfdw Advanced FullStack web development [Certificate](#)
